- various worldwide assignments for business
- involvement in many global social projects through the volunteer humanitarian organization Soroptimist International

gehrkenART was founded in 2010 by Bernhard and Connie Gehrken. Both founders have extensive experience in many different facets of the economic world.

Bernhard has grown up in a medium size family run company. He fulfilled the role as managing director in several companies.

Furthermore, he is for nearly three decades involved in the organization of medium and large family run corporations. Bernhard was also holding executive board positions in that organization with specific responsibility for media contacts.

However Bernhard's real passion has always been the world of creative arts, which led to the establishment of gehrkenART in 2010. Bernhard's second dissertation for the master in 2011 was titled „Current and Future Developments of the Tourist Industry in Dubai and the Symbiose into the world of Art“.

Connie Gehrken has long standing work experience in the financial industry, as well as in the global tourism segment. She was active in managerial positions at a leading German tour operator. Additionally she is involved in many global social projects through the volunteer humanitarian organization Soroptimist International. This volunteer work is ongoing and accompanying her work in gehrkenART.

gehrkenART understands itself as a bridge between the world of business and art. The company is creating a direct rapport for its client and is able to deliver tailor-made artwork as requested by the client. The uniqueness of gehrkenART lays in the extensive dialogue with the client and the incorporation of individual but specific accessories of the client's field of work/private life. This personal and individual work of art automatically creates a unique work of art which makes gehrkenART a one and only company.
